

Services Offered

Services

AMERICAN TELESIS
Private Line & Network Specialists

American Telesis is a provider of Private Lines and Network connectivity for both Metro and Long Haul Wide Area Network solutions. We will order your facilities either end-to-end, taking full responsibility for the complete circuit implementation and maintenance or we can provide you CFA and work with your vendor of choice, to help insure a timely end-to-end turn-up.

Some of the more popular types of connectivity that we provide are:

Traders & Brokers

Automatic Ring Down
Manual Ring Down
Forked Ring Down
Hoot'n'Hollers

Value Added Capabilities

Project Management
Customized Invoicing
Managed Services

Networks

MPLS
IPVPN
Frame Relay
DS-3 Fan-Out
DS-1 Fan-Out
Hoot'n'Holler
ATM

Additional Private Lines

DS-1 / T-1
DS-3 / T-3
OC-3 / OC-x
Dedicated Internet
Ethernet / 1.5Mb to 10Gb
56Kbps Digital
TV-1
DS-0 Analog Data & Voice
Off-Premises Extension
Foreign Exchange

Our customers consider our circuit designers to be the best in the industry.

We quickly and efficiently pinpoint every Bell and Independent Central Office as well as practically every POP, with the click of a mouse.

Our customized Amtel™ software tools map out the networks, define the mux, dacs, or bridge availability, whether it be on our network or the Bell companies, and price the circuit in real-time! Amtel™ is the most information intensive and customer-oriented telecommunication maintenance package available in the industry.
