## **American Telesis Partners with Telaid for Hoot'n'Holler Network Communications**

"Telaid is the nation's leading provider of Hoot'n'Holler equipment and services. They specialize in supporting multi-site clients across the U.S. connecting their locations to provide financial organizations a fast and reliable means to communicate throughout the trading day. We have worked with Telaid for more than six years and over that time they have consistently not only met customer requirements but exceeded expectations. American Telesis recommends Telaid with total confidence to provide the level of service needed to ensure a successful implementation. We are excited about the opportunity to partner with Telaid to offer turnkey solutions for the Brokerage, Banking, Recycling and Retail industries."

- Monica J. Bauer, Vice President of Operations

### **About Telaid**

Founded in 1981, Telaid is a full service organization built on a heritage of communications excellence and skilled in the art of building world-class solutions for its customers. Telaid designs, deploys and supervises the construction of turnkey communication infrastructures nationwide for clients with multi-site branch or store locations. Telaid's focus is on providing the highest level of service in the market by utilizing a Single Point of Contact Project Team for each customer. Their end-to-end portfolio of products and services include Structured Cabling, Audio/Video Solutions and Network Services for enterprise and multi-location businesses in Financial Services, Retail and other Fortune 1000 companies in North America.
